ABOUT INTEGRATE 2008

For the first time in Hong Kong, Integrate, the largest annual Facility Management conference in Asia, is to be held in conjunction with the region's largest built - environment exhibition. Integrate will provide the opportunity for FM professional and others within the FM community to gain insight into hot topics and perennial concerns from experienced local and international speakers, network with peers and colleagues from around Asia Pacific in a relaxed environment, and view the latest technology and products associated with the four linked themes of the exhibition.

The 2-day conference provides full access to the exhibition including access to conference delegates pavilion where delegates can relax, network and take lunch in between visits to the exhibition floors.
