## Overview

We are living in an era of rapid transformation. Digitisation, globalisation, urbanisation and disruption are signatures of our time. Our Conference themed “A vision for tomorrow” will take you on an inspiring journey to define, analyse and take action to capitalise the challenges and opportunities brought by these worldwide phenomena.

It will bring together influential figures and industrial leaders to share their insights and experience. We will examine hot topical issues, look into the current landscape of the regional and local built environment, interact and connect with local and international professionals to tap into possible solutions, therefore creating a profitable future for our city for the coming generations.

## Discover

- Hong Kong’s uniqueness and superiority, how would our city’s enduring qualities benefit our future development
- How can Hong Kong leverage its deep-rooted connection with our neighbouring cities and the world to create win-win solutions for the future
- Our entrepreneurial culture, our versatile talents’ rich experience and strong ability in tackling changes and difficulties
- Hong Kong as a new hub for startups creating new opportunities for our real estate, building and construction sectors

## Agenda

### Keynote

#### The Future is Asia

- Globalisation as a result of geopolitical uncertainty and Belt and Road Initiative
- Which sectors stand to benefit most from this economic uncertainty?
- What opportunities does this bring to professionals in the future?

### Session 1

#### Looking at our neighbours

- What does the competition from nearby cities present to Hong Kong?
- What’s the role of Hong Kong under the Belt and Road Initiative?

### Session 2

#### Change and transformation

- The changing landscape in the global context
- How can Hong Kong capitalise on a changing world?

### Session 3

#### Re-defining Hong Kong

- What is the intrinsic edge of Hong Kong?
- How should we re-define our position?

### Session 4

#### A winning formula for professionals

- How can built environment professionals benefit from disruptions?
- How should the next generations from the built environment equip themselves for the change?
